Dear Mr. Massaro:

We have reviewed your draft registration statement and have the following comments. In

some of our comments, we may ask you to provide us with information so we may better

understand your disclosure.

Please respond to this letter by providing the requested information and either submitting

an amended draft registration statement or publicly filing your registration statement on $% \left(1\right) =\left(1\right) +\left(1\right) +$

 $\ensuremath{\mathsf{EDGAR}}.$ If you do not believe our comments apply to your facts and circumstances or do not

believe an amendment is appropriate, please tell us why in your response.

 $\hbox{ After reviewing the information you provide in response to these comments and your } \\$

amended draft registration statement or filed registration statement, we may have additional

comments.

Draft Registration Statement on Form S-1 filed March 11, 2021

Prospectus Summary, page 1

1. When you indicate what you believe the "annual addressable global payment volume" is, please disclose the $\ensuremath{\mbox{\sc the}}$

basis of that belief.

2. In order to put this risk in context, please revise to state the amount of revenues and total payment volume you earn and process, respectively, from this industry. This comment

applies to the next few

risk factors that follow that relate to industry-specific risks.

volume of cross-border payments you process.

Total Payment Volume, page 82

4. We note your disclosure throughout your prospectus regarding your 34.4% period-over-

period increase in total payment volume comparing the year ended

December 31, 2019 to

the year ended December 31, 2020 and you state here that revenue growth depends upon

increase in total payment volume. Please explain why your transaction revenue grew by

3.5% as compared to the 34.4% increase in total payment volume. If there are trends

associated with increases in payment volume that may not necessarily result in increases $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1$

in revenue, please revise to disclose as much.

Key Operating Metrics and Non-GAAP Financial Measures, page 82

5. Please revise to present the most directly comparable GAAP measures (revenue, gross

margin, and net loss) in the table provided on page 82 pursuant to Item 10(e)(1)(i)(A) of

Regulation S-K.

6. We note that management believes the presentation of the Non-GAAP measure "Adjusted

Gross Margin" reflects the economic benefit of your solution. Please expand to explain

what "economic benefit" means and to also explain why management believes this $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$

 $\hbox{presentation provides useful information to investors in light of the fact that Gross $\mathsf{Margin}$$

is already being presented. Please refer to Item 10(e)(1)(i)(C) of Regulation S-K. Business, page 101

7. Please include a discussion of your foreign exchange process for international payments.

To this end, we note that in your "International Payment Example" on page 101 you $\,$

indicate that you "process the student's payment in their local currency [and manage] the

foreign exchange." If, as a part of this management process, you take on foreign exchange

risk, please include a discussion of how you manage that risk, for example with the $\,$

foreign currency forwards you enter into. Please also provide the disclosure required by

Item 305 of Regulation S-K or tell us why it is not required. Top Payment Corridors, page 108 $\,$

8. From this chart, it appears that most of the payments you process outside of the United

States are from China and India. But, as you indicate on page F-11, in 2020 the country

accounting for more than half of the 25.7 percent of your total revenue from clients

outside the United States was the United Kingdom. No other country accounted for more $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right)$

than 10 percent of total revenue. Please explain.
